WELLNESS PACKAGE 1 \$75.00

Includes: LIPID PANEL, CMP, CBC W/DIFF, A1c, Blood Pressure, Height, Weight, and BMI. The Lipid Panel is used to assess levels of cholesterol and fat in the blood. CMP measures blood sugar (glucose) levels, electrolyte and fluid balance, kidney function, and liver Function. CBC W/DIFF This panel of tests looks for many illnesses in your blood. And A1C measures your average blood glucose, or blood sugar, level over the past 3 months.

WELLNESS WOMEN'S PACKAGE \$110.00

Includes: LIPID, CMP, CBC W/DIFF A1C, TSH Blood Pressure, Height, Weight and BMI. The Lipid Panel is used to assess levels of Cholesterol and fat in the blood. CMP measures blood sugar (glucose) levels, electrolyte and fluid balance, kidney function, and liver function. CBC W/DIFF This panel of tests looks for many illnesses in your blood. The A1C measures your average blood glucose, or blood sugar, level over the past 3 months, and a TSH test is done to find out if your thyroid gland is working the way it should. It can tell you if it's overactive (hyperthyroidism) or underactive (hypothyroidism). The test can also detect a thyroid disorder before you have any symptoms.

Wellness Men's PACKAGE \$110.00

LIPID, CMP, CBC W/DIFF, A1C and PSA AND Blood Pressure, Height, Weight and BMI. The Lipid Panel is used to assess levels of cholesterol and fat in the blood. CMP measures blood sugar (glucose) levels, electrolyte and fluid balance, kidney function, and liver function. CBC W/DIFF This panel of tests looks for many illnesses in your blood. The A1C measures your average blood glucose, or blood sugar, level over the past 3 months, and a PSA measures the amount of prostate-specific antigen (PSA) in your blood. PSA is a protein produced by both cancerous and noncancerous tissue in the prostate, a small gland that sits below the bladder in males.

WE STRIVE TO OFFER THE LOWEST PRICE GUARANTEED

Confidential results, most within 24 to 48 hours. Visa, MasterCard, Discover, American Express, add a 4% Fee for Credit Cards, Health Savings Cards, PayPal, ACH, and Apple Pay accepted. BEST DEAL available for Uninsured and High-Deductible Insured consumers. To keep prices low, we do NOT accept Insurance.

Venipuncture (Blood Draw)

You get more results with a blood draw \$60 per participant (*) (Billed per the number of HRA participants) Health Screens An examiner records their measurements and draws a blood sample by venipuncture. Participants are scheduled every 10 minutes if one examiner will be present, every 6 minutes if two examiners will be present. (*) Charges for the health screens are as follows:
•\$60/person for 15 or more participants per session on-site.
•\$65/person for 11-14 participants per session on-site. •\$75/person for 4-10 participants per session on-site. •\$95/person for 1-3 participants per session on-site.
•\$95/person for at home screening.
•A charge of \$5/person will be added for health screens scheduled on Saturday/Sunday.
•A charge of \$5/person will be added for health screens scheduled between 7pm and 7am in remote locations.

BLOOD TESTS

Blood samples are sent to a national laboratory (CRL) and are tested for lipid panel, (Total Cholesterol, HDL, LDL, & triglycerides), glucose, GGT (liver function) and blood chemistries. We Contract with CRL one of the top laboratories. The laboratory transmits results electronically to Strive 4 Life LLC.

Optional Blood Tests

- Nicotine/cotinine- a charge of \$6 per participant
- PSA (Prostate Specific Antigen) - a charge of \$15 per participant for optional PSA (prostate specific antigen) Test - males only at specified age or older as determined by Employer.
- Thyroid - a charge of \$15 per participant.
- Hemoglobin A1c (Diabetic Specific Glucose Test) - a charge of \$15per participant.
- Additional blood tests are available and quoted upon request.

HEALTH RISK ASSESSMENTS by Finger Stick \$50 per participant (*) (Billed per the number of HRA participants)

Fast, Accurate Lipid and Glucose Results at the Point of Care. Recognizing the strong connection between heart attack, stroke, and diabetes, the CardioChek® Plus analyzer provides rapid on-site blood chemistry values and measurements to help identify at-risk individuals. It's one of the fastest, most cost-efficient and user-friendly analyzers. The CardioChek Plus system accurately tests lipid profile (total Cholesterol, LDL, HDL, Risk Ratio, and Trig) and glucose simultaneously with one finger stick. In as little as 90 seconds, participants will receive their results; it provides on-site results using the same technology as clinical laboratories. And Wellness Coaching of their results can be done same day. An examiner records their measurements gets a finger stick and goes over their results. Participants are scheduled every 10 minutes for one examiner. If you do not want results gone over, it is -5.00 per participants with chart below. (*) Charges for the Finger Sticks are as follows:
•\$50/person for 15 or more participants per session on-site.
•\$55/person for 11-14 participants per session on-site. •\$65/person for 4-10 participants per session on-site. •\$75/person for 1-3 participants per session on-site.
•A charge of \$5/person will be added for health screens scheduled on Saturday/Sunday.
•A charge of \$5/person will be added for health screens scheduled

Strive 4 Life, LLC, has brought eScreen/eReader in for the convenience of our client base. eReader is eScreen's equivalent to an instant urine drug test device. This device was designed to detect adulterant(s) in a sample. Most samples are processed within 3 minutes with the eReader and the DER has the report in their email. We have the occasional specimen that the eReader tells us to send to the lab. Just like other lab-based testing, it takes a few days to get results.

eScreen is also a platform for ordering other services we offer such as, blood draws, biometric measurement record, respiratory FIT testing, visual acuity, breath alcohol tests, hair follicle drug testing, and more. For more information on this product, visit eScreen's Employer Solutions:

<https://www.escreen.com/us/home/employers.html>

We do not make appointments for Urine Drug and Breath Alcohol screening. Please, walk-in for those two services.

A platform for employers to order their employee's Occupational Health testing needs. Through FormFox orders for services Strive 4 Life, LLC provide, can be created with ease. Create your account and profile, the order process is only a few more clicks away. We get notified by fax that an order was placed for us to take care of. We wait to hear from your employee to let us know when it is convenient and we can schedule accordingly. We offer Federal Drug Urine 5 Panel testing for all the regulated agencies. (FMCSA, FAA, FRA, FTA, PHMSA, and USCG). Same for Breath Alcohol Testing (BAT). We can provide a BAT for Federal or Forensic consumers. Drug Urine testing for the Forensic customers can choose from the standard panel or create a special panel to meet the need. We also have CRL's Intercept Oral Fluid Drug Test Collection Device on hand. It does get sent to the lab for analysis.

Tammy and Kathy are willing to provide these and a few other services at your place of business. Call to make arrangements today.
